

If Fire Alarm Goes Off:

a) Students Should:

Immediately leave the lab with faculty members and make their way down the stairs to the waiting areas outside of the university

b) Faculty Members Teaching Lab Should:

1. Immediately terminate class
2. Evacuate the students and leave lab right away
3. If possible, turn off the main gas switch and shut the lab door behind them

c) The Lab Manager Should:

1. Immediately close the gas valve
2. Help the faculty members to evacuate the students
3. Leave the lab
